App Name: Introducer

Purpose: Social Account/Business e-Card Sharing

Functionality:

Role: Sender

1. Customize your own e-card
2. Share others your e-Card with temporary share code
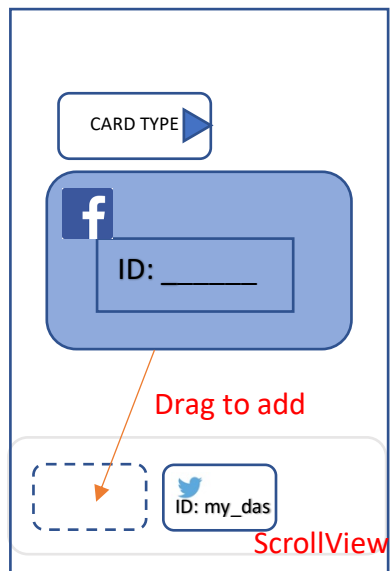

Role: Receiver

1. Receive someone's e-Card with share code
2. Manage received cards

Plan:

1. Sender sends request for getting "share code" to server
2. Receivers send "share code" to get access to a temporary repo
3. Receiver send e-cards
4. Server stores e-cards information in the temporary repo
5. Receivers refresh to download cards in the repo
6. Create folders to save downloaded cards
